

Cebit

Flying Fox Films exhibited at the 2013 CEBIT Australia event. As the number one business technology event, we naturally felt compelled to create a short video of our time at CEBIT. Through the use of motion graphics, set seamlessly within the frame, Flying Fox Films captured the spirit of the event, and its 500 exhibitors. Wonderfully arranged, this video short should leave you curious and optimistic. We at Flying Fox Films, Sydney thank everyone who was a part of the 2013 CEBIT event.
